Gauge design for sewing mattress

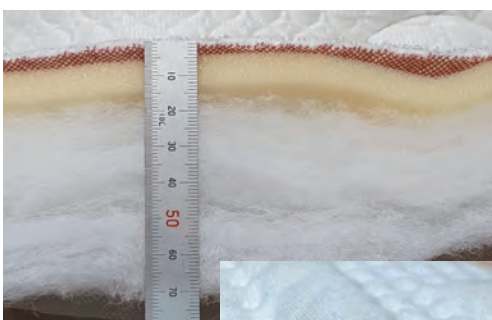

SERIES

Ideal for sewing Mattress

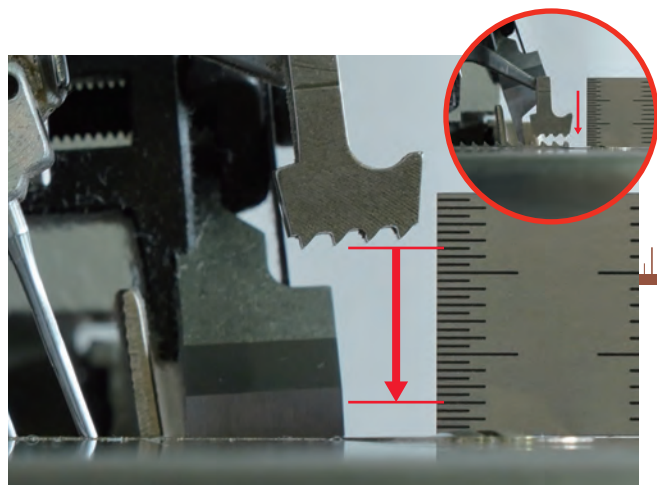

Safety stitch machine with differential top-and-bottom feed for Extra-heavy weight fabric.

The large top feed movement ensures smooth sewing without jamming, even for cross seam sections of extra-heavy weight mattress, The large main feed movement ensures stable fabric feeding. Gauge design for sewing extra-heavy weight mattress ensures smooth fabric entry.

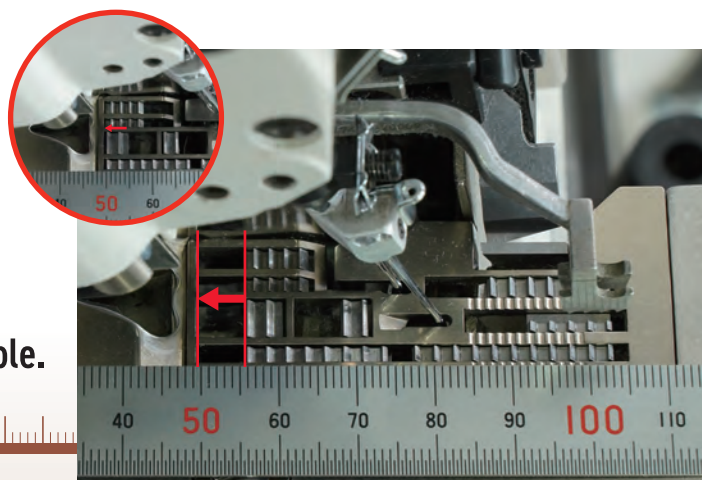

By using mattress sewing application, the stable quality can be ensured.

- Top feed vertical movement 9.5mm
- Max. stitch length 6mm
- The biggest looper capacity → **Presser foot lift 9mm**

• Top feed vertical movement **9.5mm**

The fabric will not jam even by sewing cross seam sections of extra-heavy weight fabrics!

• Max. stitch length **6mm**

The constant feeding is possible.
